REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE

FOR THE

FISCAL YEAR ENDED JUNE 30, 1880.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1880.

REPORT

OF

THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
Document No. 50,
Internal Revenue.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, November 24, 1880.

SIR: I have the honor to submit the report of the Bureau of Internal Revenue for the fiscal year ended June 30, 1880, with accompanying tables, exhibiting in detail the receipts from each specific source of revenue by years and collection districts, together with additional facts and figures, showing the operations of the bureau during the months of July, August, September, and October, being the first four months of the current fiscal year.

I am glad to be able to bring to your attention the fact that since my last annual report still further improvement has been made in the condition of the internal-revenue service.

The efforts of the past four years for the suppression of the illicit manufacture and sale of spirits and tobacco have been substantially crowned with success. The frauds upon the revenue and the resistance to authority still existing are confined to a few localities, and I am of opinion that the hearty co-operation of all officers charged with the enforcement of the laws will, before the close of the present administration, have established the authority of the government for the collection of the taxes and the equal enforcement of its laws in all parts of the country.

The discipline, efficiency, and fidelity to duty of the officers of internal revenue have steadily improved; the manner in which they have enforced the laws has promoted the relations of harmony which should subsist between the tax-payer and the government, and I take pleasure in noting the fact of an almost universal disposition on the part of tax-payers to observe the laws and see them faithfully executed.

REDUCTION OF TAXATION.

The receipts of internal revenue for the fiscal year 1879 were $113,449,621.38, showing an increase of $2,795,458.01 upon the previous year. The receipts for the fiscal year 1880, in the face of the reduction of the tax on tobacco, were $123,981,916.10, showing an increase of $10,532,294.72. The receipts for the first four months of the present fiscal year amount to $43,789,318.30, showing an increase over the corresponding period of last year of $3,658,213.48. I know of no reason why this increase should not be maintained during the fiscal year, so that the total collections for the year from internal revenue taxes at the present rates would be $135,000,000.

While the receipts from taxes are thus increasing in amount, the demands upon the Treasury are being lessened by the reduction of the public debt, and of the annual interest charge. It is probable, therefore, that Congress will be disposed to relieve the people from some of the internal-revenue taxes, and if such a reduction is to be made, I respectfully suggest the following list of taxes collected during the fiscal year 1880 for the consideration of the law-making power:

Bank checks	$2,270,421 00
Friction matches	3,561,300 00
Patent medicines or preparations, perfumery, cosmetics, &c	1,836,673 22
Bank deposits	2,347,568 07
Savings-banks deposits	163,207 36
Bank capital	811,436 48
Total	10,990,606 13

In the event it is deemed advisable to take the tax off matches, patent medicines, perfumery, &c., due consideration should be had to the fact that large stocks of these articles, tax paid, are now in the hands of the trade, and that a very serious reduction in their value, especially of matches, would result if the tax were taken off suddenly, and articles manufactured free of tax were brought into competition with those upon which the existing taxes had been paid. In my opinion an act abolishing these taxes should not go into effect earlier than, say three months from its passage.

The same may be said in regard to check stamps. Considerable stocks of stamped checks are now in the hands of individuals, banks, and bankers, upon which the stamps have been imprinted. I think it would be wise that the operation of the repeal should be delayed at least three months, so as to give time for the use of these stamps.

Whenever the interests of the government will allow it, I think it will be wise to confine internal-revenue taxation to spirits, malt liquors, tobacco, snuff, cigars, and special taxes upon the manufacturers and dealers in these articles. I am of opinion that reliance can be placed upon receiving the sum of $124,000,000 annually from these sources, which sum would gradually increase with the increase of population, but which would probably be subjected to diminution upon a recurrence of hard times.

In considering the question of relieving patent medicines from internal revenue taxes, it should be understood that many of the articles put upon the market and taxed as medicinal bitters are used as a beverage. Persons engaged in the sale of such articles are not required to pay special taxes as retail dealers in liquors, so that if the articles were relieved from taxation medicinal bitters would be sold everywhere without paying any internal-revenue tax whatever.

In passing upon the right of these various medicated bitters to be taxed as such, and sold without payment of the special tax as retail liquor dealers, the office is often seriously embarrassed to find the exact line between a medicinal bitter liable to stamp tax and a compound liquor subject to be sold only as a beverage. In my opinion it would be wise to continue the stamp tax upon all medical bitters containing more than 20 per cent. of proof spirits.

The tax upon savings banks, in my judgment, should be removed, or the whole legislation upon the subject of taxing savings banks should be modified and made more equitable; and there would seem to be no just ground for continuing the tax upon the capital and deposits of banks and bankers if it is found that the revenues are sufficient without it.

ASSESSMENTS ON CIRCULATING NOTES.

The assessments on circulating notes of corporations and individuals under sections 3412 and 3413 United States Revised Statutes, and sections 19 and 20 of the act of February, 8, 1875, amounted, during the year ended June 30, 1880, to $461,597.82, an increase of $452,355.20 over those made during the preceding year. The chief motive for issuing the notes upon which these assessments were made was unquestionably to supplement an insufficient capital or to bolster up the waning credit of the firms or corporations making the issues. The large increase in these assessments clearly indicates the disposition of individuals and corporations to flood the country with an insecure "shinplaster" circulation. The existing laws of the United States seem to constitute the only breakwater for the protection of the people against an inundation of every imaginable character of individual and corporate circulating notes designed to take the place of money. In my judgment those laws should be maintained upon the statute book.

RESISTANCE TO ENFORCEMENT OF THE LAWS.

By reference to the table on page 24, it will be seen that during the last four years and four months, 4,061 illicit distilleries have been seized, 7,339 persons have been arrested for illicit distilling, 26 officers and employés have been killed and 57 wounded, in the enforcement of the internal-revenue laws. During the past sixteen months 1,120 stills have been seized, 1,265 persons arrested, and 10 officers wounded in the enforcement of the laws. While the number of stills seized and persons arrested since my last annual report is very large, I am satisfied that there will be a decrease henceforward in the number of such seizures and arrests.

In January of the present year a combined movement was made, by armed bodies of internal-revenue officers, from West Virginia southward through the mountains and foothills infested by illicit distillers, which resulted in the seizure of a number of illicit distilleries, and the arrest of many persons engaged therein. The effect of this movement was to convince violators of the law that it was the determination of the government to put an end to frauds and resistance to authority, and since that time it has been manifest to all well-meaning men in those regions of country that the day of the illicit distiller is past. Public sentiment has been gradually setting in against these frauds, and I feel assured that if continued efforts are made for the enforcement of the laws the taxes upon whisky and tobacco can soon be collected in the districts where frauds have been so rife without the use of armed posses of men.

For the purpose of preventing old offenders from resuming the business of illicit distilling, I have deemed it advisable to maintain a special force of deputies in many of the districts to police the districts and seize illicit distilleries. These officers are armed and move in small posses so as to deter resistance. They are instructed to establish friendly relations with the people and to encourage the observance of the laws. This system has worked satisfactorily and beneficially, and except in the second district of Georgia there has been very little disturbance during the past few months.

ENCOURAGEMENT OF LEGAL DISTILLERIES.

It has been the policy of this office to encourage the establishment of legal distilleries in those collection districts where illicit distillation has

heretofore prevailed, and there are now 469 licensed grain distilleries in those districts against 380 in 1879, and 177 in 1878. I have felt that if the manufacture of whisky was to be carried on at all in this section of country it was much better that it should be done openly and in full compliance with the requirements of law rather than secretly in violation and defiance of law, and with the demoralizing influences of dishonesty, turbulence, outlawry, and murder, which invariably prevail in a community where illicit distilling is carried on uncheeked. The policy thus adopted has worked well. In every county where legal distilleries have been established in any number, illicit distilling has almost entirely ceased, violent resistance to law has become almost unknown, and there has been a large increase of revenue.

It must be understood that many of the legal distilleries thus established have no greater capacity than ten gallons per day, and that it is necessary for the protection of the rights of the government to have a storekeeper and ganger assigned to each distillery. It is thus obvious that the expense of collecting the taxes upon the spirits so made is very heavy, and necessarily increases the estimates for this year for the pay of storekeepers and gangers. It is, however, unquestionable that it is far preferable to incur this expenditure to secure the collection of the revenue and an orderly observance of the laws than to spend large sums of money in the employment of raiding parties for the seizure of illicit distilleries and the arrest of illicit distillers. So long as the government looks to the tax upon distilled spirits for a large proportion of its revenues, it is just and right that every producer of distilled spirits shall be held to the payment of his legal tax, and such appropriations should be made as will enable the executive branch of the government to enforce the tax law so as to collect the revenues justly from all alike.

I have the honor to earnestly recommend that the appropriation asked for for this service be granted.

PROTECTION OF REVENUE OFFICERS.

I again recommend additional legislation for the protection of the lives and persons of officers of the United States from the unlawful assaults of those who resist their authority, and refer to the remarks on this subject in my last annual report, page v.

FRAUDS IN THE MANUFACTURE OF VINEGAR.

I respectfully direct attention to House bill No. 6460, entitled "A bill to regulate the manufacture of vinegar by the alcoholic vaporizing process," now pending in Congress, and urgently request that the same be taken up and passed into law at the earliest practicable moment. I state without hesitation that the provisions of section 3 of the act of March 1, 1879, authorizing the use of a process for the vaporizing of alcohol in the manufacture of vinegar, has opened the door to frauds upon the revenue which cannot be guarded against successfully under existing laws. While the great majority of manufacturers of vinegar by this process are, no doubt, following a legitimate and honest business, I am convinced that there are many who have engaged in the business for the express purpose of defrauding the government out of its tax upon distilled spirits. As was shown before the Committee on Ways and Means of the House of Representatives, at its last session, it is easy for a manufacturer of vinegar by this process to produce low-wines of 50 or 60 per cent. strength. As there are no storekeepers or other government officers connected with these establishments, it is obvious that these low-wines may be removed and sold as distilled spirits without the payment of the tax if the vinegar manufacturer sees fit to do so. The law authorizing the vaporizing of alcohol by vinegar manufacturers should either be repealed, or else a government storekeeper should be stationed at each vinegar factory using this process, the expense of such storekeeper to be borne by the manufacturer.

EMPLOYÉS ON THE STAMP ROLL.

Sections 321, 3238, 3312, 3328, 3330, 3341, 3369, 3395, 3445, and 3446 of the United States Revised Statutes charge the Commissioner of Internal Revenue with the duty of procuring and issuing appropriate stamps for all internal-revenue taxes imposed by law. Most of these stamps are now being produced by the Bureau of Engraving and Printing. They are delivered to the Commissioner of Internal Revenue, and are by him issued to collectors of internal revenue, and sold to tax-payers.

The work of issuing all stamps, except stamps on bank checks and tin-foil tobacco wrappers, directly from the Internal Revenue Bureau, was commenced in September, 1877, since which time nearly $334,000,000 worth of stamps have been sent out. The accounting officers of the Treasury Department charge to the Commissioner the stamps delivered to him by the Bureau of Engraving and Printing, and credit him with all stamps properly issued and sold. The honorable First Comptroller, who passes upon these accounts, has expressed to the Commissioner the opinion that he (the Commissioner) is personally liable to the government for the safe-keeping and proper issue of these stamps.

When it became necessary to employ a force to perform the work of receiving and issuing these stamps the question arose as to who should exercise that power, the law making the appropriation for dies, paper, and stamps requiring that the sum appropriated should be expended "under the direction of the Secretary of the Treasury." Upon consultation between the Secretary of the Treasury and the Commissioner of Internal Revenue it was then decided that the Commissioner was the proper officer to employ that force. The number of persons to be employed and the salaries to be paid them were fixed by the direction and with the approval of the honorable Secretary. The Commissioner then proceeded to employ the necessary force, and from month to month the pay-rolls for the persons so employed were passed by the accounting officers and paid without question.

On the 28th of June last, the following letter was received:

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., June 28, 1880.

SIR: I am in receipt of the letters of the acting Commissioner of the 24th and 26th instant, informing me of the employment of a messenger in your office, and of certain persons to be employed at East Pepperell, Mass., all to be paid from the appropriation for dies, paper, and stamps.

The legislative bill approved the 15th instant, provides that the appropriation for that purpose for the next fiscal year shall be expended under the direction of the Secretary of the Treasury. You will, therefore, please transmit to this office any recommendations which you may have for the employment of the persons named in the two above-mentioned letters, or for the employment of any other persons paid out of the above appropriations, and will notify them that their services will not be required on and after the first proximo, unless previously authorized by the Secretary.

Very respectfully,

JOHN SHERMAN, *Secretary.*

Hon. GREEN B. RAUM,
Commissioner of Internal Revenue.

Under the instructions of this letter the persons employed upon the stamp-roll by authority of the Commissioner were discharged, and a majority of them were subsequently re-employed by direction of the Secretary of the Treasury. The effect of this letter was to divest the Commissioner of an authority which had been exercised by him for nearly three years under the sanction of the Secretary.

The principle seems to me well established that no officer shall be held pecuniarily responsible for the neglect or dishonesty of an employé in whose appointment he has no voice, and I respectfully submit that the sections of law above referred to impose such duties and confer such powers upon the Commissioner of Internal Revenue, taken in connection with his pecuniary responsibility for the custody of these stamps, as should carry with them authority to select and employ the persons engaged in the work of receiving, counting, caring for, and issuing said stamps. In coming to this conclusion I have duly considered the constitutional provision which authorizes Congress to empower the heads of departments to appoint inferior officers, and that section of the act above alluded to appropriating money for dies, paper, and stamps, which provides that the same "shall be expended under the direction of the Secretary of the Treasury." The persons employed upon this work are not "officers"; they are clerks, book keepers, counters, and messengers. And the statutory provision is, in my opinion, fully met by the Secretary directing the number of persons to be employed and fixing their pay, thus controlling the expenditure of the appropriation. Under the changed system persons who were regarded by the Commissioner as competent and experienced in their work and were satisfactory to him have been removed, and others without experience and unknown to the Commissioner have been substituted.

With the utmost respect to the honorable Secretary I will say that in my opinion this action is erroneous in principle and in law, and in my judgment should be revoked. The Commissioner of Internal Revenue should not be chargeable with the shortcomings of persons employed in the business of handling $150,000,000 worth of stamps per annum without having the selection of such persons, and I respectfully recommend that if upon a further consideration of this question the honorable Secretary entertains a doubt as to the correctness of the positions above stated, legislation should be asked for to place the authority of selection and employment in the hands of the officer on whom rests the pecuniary responsibility for the conduct of the persons employed.

APPOINTMENT OF STOREKEEPERS, GAUGERS, AND TOBACCO INSPECTORS.

For about twelve years preceding June 30 last, under a plan adopted by Hon. Hugh McCulloch, Secretary of the Treasury, the correspondence with collectors of internal revenue and others in respect to the appointment and removal of storekeepers, gaugers, and tobacco inspectors was conducted by the Commissioner of Internal Revenue, and the appointments were made on his recommendation. This system was changed by the following circular:

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., June 30, 1880.

To Collectors of Internal Revenue and others:

On and after July 1, 1880, any application for appointment to the office of ganger, storekeeper, storekeeper and ganger, or inspector of tobacco in the internal-revenue service will be made to the Secretary of the Treasury, and in each case will be in the handwriting of the applicant, and signed by him, stating his age, legal residence, where born, and service in the Army or Navy, if any. The application must be accompanied by testimonials as to character for sobriety, industry, and business habits.

Collectors of internal revenue will report to the Secretary of the Treasury whenever the necessities of the service require new appointments or removals of incumbents, giving the reasons therefor, and forwarding to this office the papers in each case.

Removals from office of any of the above-named officers will hereafter be made only by the Secretary of the Treasury.

JOHN SHERMAN,
Secretary.

The correspondence in respect to these appointments and removals is now carried on by the Secretary of the Treasury through the Appointment Division of his office. Having observed the workings of the new system since its inauguration, I deem it my duty in the interest of the public service, to point out the reasons why, in my judgment, this work can be better done by the Commissioner of Internal Revenue.

By existing laws all the officers enumerated in this circular perform their duties under the general instruction of the Commissioner of Internal Revenue, to whom they make return of work done upon forms prescribed by him. In the case of storekeepers, they are assigned to duty by the Commissioner, and in the case of gaugers, their accounts are audited by him. Revenue agents, under the instructions of the Commissioner, constantly supervise the work of these officers and report upon the same, and periodically inspect them and report as to their capacity and fidelity to duty. No new distillery can be started without the approval of the Commissioner of Internal Revenue, and reports of the closing of distilleries are promptly made to him; a record is kept in his office of the assignment of all storekeepers and gaugers. There are in the Internal Revenue Bureau persons who are experts in the work of gaugers and storekeepers, and who are able to and do criticise their work so as to keep the Commissioner advised upon these matters. This condition of things enables the Commissioner of Internal Revenue to decide when it is proper to appoint new officers in a district, and also when an officer in consequence of neglect of duty or incapacity should be removed. These means of information are not in the Secretary's office.

It may be proper to say that the appointment clerk and his assistants frequently obtain verbal information from this office in regard to matters connected with the appointment and removal of officers of this class. This, however, is always in an informal way, no record being made of the matter on either hand.

I have not questioned and do not question the right of the Secretary to obtain information from such sources as he may deem proper upon which to make these appointments and removals, but it occurs to me that the officer who by law has charge of the general superintendence of the collection of the revenues and who has so much to do with the officers in question should be consulted as to the necessity of making appointments and the propriety of making removals.

The plan adopted by the foregoing circular was tried for a short time by Secretary McCulloch, with this exception, that he expressly invited the aid of the Commissioner in regard to removing incompetent persons from office, but the system was not found to work well and was abandoned.

I claim that the storekeepers and gaugers have during the past four years steadily improved in their knowledge of law and regulations, in diligence and fidelity in the performance of their duties, and in their pride in the service. This corps of officers for efficiency and discipline is

not excelled by any branch of the civil service, and this state of things is the outgrowth for the most part of the measures set on foot at this office for the improvement of the service. The same system of examination and inspection adopted for collectors' offices, with a similar grading according to a scale of merit, has been applied in the case of storekeepers and gaugers, and the result has been a laudable ambition on their part to excel in intelligence and efficiency in the discharge of their duties. It is obvious that the effect of this system will be lost, and that officers will be made indifferent to or independent of criticism or commendation by this office when it is understood that only on the recommendation of a collector will a removal be made.

In my judgment it would be wise for the honorable Secretary of the Treasury to reconsider this subject with a view to a modification of his present order.

IMPROVEMENTS IN THE PUBLIC SERVICE.

In administering the Internal Revenue Office during the past four years I have directed my efforts—

1st. To popularizing the internal revenue system of taxation, so that tax-payers everywhere would cheerfully observe the laws, and a healthy public sentiment would be aroused favorable to their enforcement.

2d. To break up frauds of every kind, especially the illicit manufacture and sale of spirits and tobacco, and thoroughly establish and maintain the supremacy of the laws of the United States.

3d. To correct abuses of administration, especially the institution of suits and prosecutions for trivial and technical violations of law.

4th. To bring into the public service honest, capable, and efficient men, to increase them in the knowledge of their duty as prescribed by law and regulations, and to stimulate a just spirit of emulation amongst officers in the performance of duty.

5th. To establish a more perfect and uniform system for the transaction of the public business by collectors in their offices and by their deputies in their divisions, and to insure strict accountability for the public funds.

6th. To secure a prompt and careful transaction of the public business in the Bureau of Internal Revenue, and so to dispose of such business as had accumulated during past years that the labor of the office might be directed to current work.

Some of the leading improvements in the public service which have been effected are hereinafter recapitulated.

RELATIVES IN OFFICE.

Upon an examination of the *personnel* of the internal revenue service, I deemed it advisable to issue to each collector the following circular, known as Circular Letter 44, which was approved by Hon. R. C. McCormick, Acting Secretary:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, August 17, 1877.

The reports of collectors, in reply to Circular No. 42, dated June 19, 1877, disclose the fact that in a number of districts the officers and employés appointed by collectors or upon their recommendation, are, to a large extent, related by blood or marriage to such collectors; or, if not so related, are related to each other, so that, in fact, the selection of officers and employés in many instances is confined to a few families, upon whom alone fall the responsibilities and emoluments of office.

I regard this condition of affairs as an abuse in administration, the continuance of which is incompatible with the best interests of the public service, as greatly tending to a lax discipline, and to the condonation of irregularities.

For the purpose of rectifying this condition of things, collectors will observe the following rules in respect to the officers and employés of their respective districts:

First. Of persons related to a collector by blood or marriage, but one shall be retained in office.

Second. Of persons not related to a collector, but related to each other by blood or marriage, but one shall be retained in office.

Collectors will make the necessary recommendations for the appointment of gangers, storekeepers, and storekeepers and gangers, and change their force of deputies and clerks so as to have their respective forces conform to the foregoing rules.

All changes under this circular will take effect on or before the 1st day of October, 1877.

GREEN B. RAUM,
Commissioner.

The principle of this circular has, I think, received the approbation of the public, and its enforcement has been beneficial to the service.

EX PARTE DEPOSITIONS.

In my annual report for the year 1876, I recommended the passage of a law in regard to the taking of depositions for use in internal-revenue cases. No such act having been passed by Congress, and believing that the system which had long prevailed of deciding cases upon *ex parte* evidence should be changed, I issued the following circular:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, D. C., October 30, 1877.

In all claims for abatement, refunding, drawback, or reward for information, all applications for compromise, all contested questions as to claims of the government for taxes not assessed, and generally in all matters wherein additional testimony is required to be taken, no *ex parte* affidavit or deposition will be considered unless the same shall have been taken after due notice to the Commissioner as herein prescribed.

Such notice must state the time and place at which, and the officer before whom, the testimony will be taken; the name, age, residence, and business of the proposed witness, with the questions to be propounded to the witness, or a brief statement of the substance of the testimony he is expected to give.

The notice shall be delivered or mailed to the Commissioner a sufficient number of days previous to the day fixed for taking the testimony, to allow him, after its receipt, at least two days, exclusive of the period required for mail-communication with the place at which the testimony is to be taken, in which to give, should he so desire, instructions as to the cross-examination of the proposed witness.

Whenever practicable the affidavit or deposition should be taken before a collector or deputy collector of internal revenue, in which case reasonable notice should be given to the collector or deputy collector of the time fixed for taking the deposition or affidavit.

It will be observed that these regulations relate to affidavits and depositions *additional* to those presented with the claim or matter in question as now provided for under existing regulations.

The foregoing regulations are not intended to preclude the examination of witnesses before the Commissioner; and he also reserves to himself the right to receive and consider affidavits as to which previous notice has not been given where the reason for failure to give such notice shall appear to him to be sufficient, and also in other cases in which, from their exceptional character, or the character of the affidavit, he shall be satisfied that the rule should not be enforced.

These regulations shall apply to all matters of the character first above mentioned pending in this office on and after the first day of December next.

GREEN B. RAUM,
Commissioner.

Approved:
R. C. McCORMICK,
Acting Secretary.

The enforcement of this circular has rendered the evidence upon which action is had in internal-revenue cases very much more definite and satisfactory than was practicable under the system previously prevailing.

PROSECUTIONS FOR TECHNICAL VIOLATIONS OF LAW.

For the purpose of preventing the institution of suits and prosecutions for technical and trivial causes, I addressed to collectors of internal revenue the following letter:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, April 25, 1878.

SIR: The number of cases for violations of the internal-revenue laws that are placed upon the dockets of the courts throughout the country is so great, and the expenditure for the trial of these cases is so large, and in many courts, in consequence of the great number of cases, the delay in bringing cases to trial is so great, that it becomes a matter of great importance that the officers of the government should observe the utmost degree of care in bringing cases into court in view of the facts above stated, as well as the rights of the citizens accused.

You are therefore instructed, before reporting a case to the district attorney for prosecution, to examine into the same with the utmost degree of care, with a view of giving the district attorney such definite information in regard to the case as will enable him to determine the question of the propriety of instituting proceedings. It is not the wish of this office that trivial cases, or cases of a mere technical character, involving no loss to the government, and where no fraud has been committed or intended, should be dignified by being brought into court for prosecution.

On the other hand, where persons have knowingly and willfully violated the law with the evident intention of defrauding the government of its revenues, vigorous measures should be taken to bring the parties to trial and punishment.

Very respectfully,

GREEN B. RAUM,
Commissioner.

Collectors have, for the most part, been guided by the spirit of this letter, and the number of improper suits and prosecutions, instituted apparently for the creation of costs only, has been very greatly diminished. The principles of this letter have recently been embodied in instructions to district attorneys and United States marshals with the approval of the honorable Secretary.

EXAMINATION OF COLLECTORS' OFFICES.

In March, 1877, I adopted a plan of making quarterly examinations of the accounts of collectors with a view of establishing a more uniform system of transacting the public business, of requiring all the books and accounts to be properly written up to date, of securing rigid accountability for the public funds, and by these means of promoting the efficiency of the collectors and their subordinates. An official standard of a first-class office was established, as follows:

First. Where the officers are honest, capable, and faithful.

Second. Where the collector devotes his best energies to the proper organization and discipline of his clerical and division force, and uses every endeavor to collect all the taxes due the government.

Third. Where every subordinate manifests pride in his position, and ambition to excel in his line of duty.

Fourth. Where no errors or discrepancies are found in the cash or stamp account.

Fifth. Where all the entries are made before the close of each day's business, cash balanced, and books and packages of stamps sold from during the day verified.

Sixth. Where every possible effort is made to promptly dispose of each item on the lists.

Seventh. Where all bonds are properly executed, approved, recorded, and filed.

Eighth. Where the penalties are collected, compromise cases promptly reported, and money properly deposited.

Ninth. Where the office is furnished with a view to the preservation of public records, the facilitating of business, and in a manner suitable and becoming the purpose for which it is used.

Tenth. Where every record is completed to date, and is without erasures, blots, or any defacement.

Eleventh. Where the Internal-Revenue Record and the lists are bound, and letter-books and circulars indexed.

Twelfth. Where everything presents the appearance of a first-class business office.

Thirteenth. Where the deputies in charge of stamps are supplied with the proper records, their books, accounts, and stamps in perfect order, and *stamp* and *cash* account verified by the collector at least once each quarter.

The following requirement has recently been added:

Fourteenth. Where all required reports and returns are made to the office at Washington, and where there is no unnecessary delay in correspondence with that office.

An office in which all of these requirements are fulfilled is graded as No. 1. Failure to come up to the official standard in any one of these particulars results in the office being marked down at a lower grade. Experience has shown that these examinations have created a splendid *esprit de corps* in the service; and to-day, out of 126 collectors' offices, 119 are graded as first-class according to the official standard.

INSPECTION OF OFFICERS.

The system of inspecting officers established in 1877 was intended to more thoroughly create and diffuse a knowledge of internal-revenue laws and regulations amongst both officers and tax-payers, to establish a greater uniformity in the enforcement of the laws, and to place upon the files of this office the record of every officer connected with the service. It was believed that this system would prove an efficient school for the officers, and I am glad to say that my expectations have been more than realized.

The inspections of deputy collectors, taken in connection with their diary reports attached to their monthly accounts, give the collectors and this office an insight into the manner in which they perform their duties, and so with the storekeepers and gaugers the inspection reports taken in connection with their reports of work done enable the collectors and this office to form a proper estimate of the value of these officers to the service. The incompetent officer is soon discovered and the government is enabled to properly dispense with his services, while the diligent and faithful officer has a record in this office which can always be invoked in his behalf.

In connection with the reports of examinations and inspections the officers have been subjected to just criticism for shortcomings and have received commendation for diligence and efficiency.

An important part of the work of the internal-revenue service is the policing by deputy collectors of their respective divisions. To promote efficiency in this work the great majority of policing deputies have been relieved from the sale of stamps. A system has been introduced of making an annual allowance for traveling expenses to be accounted for by the deputy in his accounts. With the approval of the honorable First Comptroller deputy collectors have been required to render monthly pay accounts instead of quarterly, rendering with said accounts a diary report setting forth the work performed by them. These measures have secured a more thorough system of work on the part of division deputies.

GAUGING.

To secure greater efficiency and uniformity in the work of gaugers, competent experts have, from time to time, been detailed to visit the leading spirit-producing districts and inspect the gangers and correct any errors of work into which they might have fallen. Gaugers have also been required in their reports of work done to give the length and mean diameter of each package gauged, so that their work and calculations can be easily verified. This, added to certain improvements which

have been made in the gauging instruments, has resulted in greatly increased accuracy in the work of gauging.

STOREKEEPERS.

The storekeepers have been greatly improved in diligence and efficiency by periodical inspections and by frequent visits from collectors and revenue agents.

CONDITION OF THE OFFICE.

It is gratifying to be able to state that the work of this office is now thoroughly in hand, and that the time of almost the entire force is exclusively devoted to the transaction of current business. The correspondence of the office receives prompt attention; accounts are adjusted without delay and forwarded to the accounting officers for audit and payment. The redemption of stamps and settlement of drawback claims are part of the current business. Claims for the abatement and refunding of taxes and offers in compromise receive the consideration of the office as soon as the proper proofs are filed. The books containing the accounts with the Bureau of Engraving and Printing, with collectors, and with tax-payers who purchase stamps directly from the office, are kept written up to date and the account of stamps on hand is daily carefully verified and balanced. The work in connection with the establishment and operation of distilleries, breweries, and tobacco and cigar manufactories is promptly and diligently performed.

For this satisfactory condition of the office, I desire to return my sincere thanks to the officers, clerks, and employes for their diligence, fidelity, and zeal in the performance of duty.

AMOUNTS COLLECTED AND ACCOUNTED FOR BY COLLECTION DISTRICTS.

Soon after the close of the fiscal year ended June 30, last, I caused the customary annual examination to be made of the records and accounts of each collector of internal revenue throughout the United States, for the purpose of ascertaining whether the public moneys collected had been duly accounted for. This examination disclosed the gratifying fact that during the past fiscal year $123,981,916.10 of internal revenue taxes had been collected, and that every dollar had been paid into the Treasury. During the past four fiscal years, $467,080,885 of taxes have been received by collectors of internal revenue, and the entire sum has been paid into the Treasury. All deficiencies which have occurred in the accounts of collectors during that period have been made good by payments into the Treasury. Fidelity in accounting for the public funds being one of the highest tests of the efficiency of officers intrusted with the collection of revenue and the disbursement of public money, the officers of internal revenue, judged by this rule, are entitled to a high rank in the public service; and I take pleasure in bearing testimony to the fact that, as a body of officers, it will be difficult to improve upon them in respect to integrity, intelligence, fidelity, and zeal in the performance of duty.

I append a statement of the collections made, by districts, during the past fiscal year, with the name of each collector and the amount collected and paid into the Treasury by him.

COST OF COLLECTION.

The total cost of collecting internal revenue in the United States for the fiscal year ended June 30, 1880, was as follows:

For salaries and expenses of collectors, including pay of deputy collectors, clerks, &c	$1,798,954 61
*For salaries and expenses of revenue agents, surveyors of distilleries, gangers, storekeepers, and miscellaneous expenses	1,955,000 00
For stamps, paper, and dies	423,558 15
For expenses of detecting and punishing violations of internal revenue laws	74,797 97
For salaries of officers, clerks, and employés in the office of Commissioner of Internal Revenue	253,330 00
Total	4,505,640 73

Being 3.63 per cent. of the total amount collected.

ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the Internal Revenue Service for the fiscal year ending June 30, 1882, as follows:

For salaries and expenses of collectors	$2,000,000
For salaries and expenses of thirty-five revenue agents, for surveyors, for fees and expenses of gangers, for salaries of storekeepers, and for miscellaneous expenses	2,100,000
For dies, paper, and stamps	442,000
For detecting and bringing to trial and punishment persons guilty of violating the internal revenue laws, including payment for information and detection	100,000
For salaries of officers, clerks, and employés in the office of the Commissioner of Internal Revenue	253,330
Total	4,895,330

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors for the fiscal year ending June 30, 1881, are based upon an estimate of their probable collections according to the following scale, with the qualification that if the actual collections should vary from the amounts estimated, the salaries would be readjusted at the end of the fiscal year:

For collection of—	
$25,000 or less	$2,000
25,000 to $37,500—$12,500	2,125
37,500 to 50,000— 12,500	2,250
50,000 to 75,000— 25,000	2,375
75,000 to 100,000— 25,000	2,500
100,000 to 125,000— 25,000	2,625
125,000 to 175,000— 50,000	2,750
175,000 to 225,000— 50,000	2,875
225,000 to 275,000— 50,000	3,000
275,000 to 325,000— 50,000	3,125
325,000 to 375,000— 50,000	3,250
375,000 to 425,000— 50,000	3,375
425,000 to 475,000— 50,000	3,500
475,000 to 550,000— 75,000	3,625
550,000 to 625,000— 75,000	3,750
625,000 to 700,000— 75,000	3,875
700,000 to 775,000— 75,000	4,000

*This includes an estimated deficiency of $135,000, being the expenses in excess of the amount appropriated.

$775,000 to $850,000—$75,000	$4,125
850,000 to 925,000— 75,000	4,250
925,000 to 1,000,000— 75,000	4,375
1,000,000 and upward	4,500

OFFICIAL FORCE FOR FISCAL YEAR 1881.

The force connected with this bureau in the various districts throughout the United States is as follows:

One hundred and twenty-six collectors, who receive salaries as follows:

Twenty-nine	$4,500	Four	$3,125
Two	4,375	Seventeen	3,000
Five	4,250	Eight	2,875
Five	4,125	Nine	2,750

Two	3,375	Two	2,000
Two	3,250		

There are also employed nine hundred and forty-nine deputy collectors, who receive salaries as follows:

One	$2,100	One	$1,025
Fourteen	2,000	Thirty	1,000
One	1,950	Six	950
Nine	1,900	Thirty-six	900
One	1,850	Two	850
Twenty-seven	1,800	Eight	800
Five	1,750	Two	775
Twenty-six	1,700	Two	750
Eight	1,650	Three	720
Fifty-four	1,600	Eight	700
Ten	1,550	Two	650
Eighty-six	1,500	One	640
Sixteen	1,450	Fifteen	600
One	1,425	Two	550
Two hundred and fifty-seven	1,400	Four	500
Twenty-six	1,350	One	475
One	1,325	One	450
Forty-nine	1,300	Three	400
Seventeen	1,250	Twenty	300
One	1,225	Five	250
Ninety-three	1,200	One	240
One	1,175	Thirteen	200
Twenty-one	1,150	Two	150
Thirty-eight	1,100	One	120
Four	1,075	One	100
Ten	1,050	Two	60

Also one hundred and seventy-nine clerks, messengers, and janitors, who receive salaries as follows:

One clerk	$1,600	Fourteen	$600
Eight clerks	1,500	One	550
Seven clerks	1,400	Five	500
Two clerks	1,350	One	480
Four clerks	1,300	Two	400
Twenty-six clerks	1,200	Two	300
Five clerks	1,150	One messenger	450
Sixteen clerks	1,100	Two messengers	300
Seventeen clerks	1,000	Four janitors	300
Twenty-seven clerks	900	One janitor	125
Eighteen clerks	800	Four janitors	100
Two clerks	720	One janitor	75
Five clerks	700	One janitor	52
Two clerks	670		

There are also employed 648 gaugers, who receive fees not to exceed $5 per diem; 945 storekeepers and gaugers, who receive not to exceed $4 per diem; 543 storekeepers, who receive not to exceed $4 per diem (all of the foregoing officers are paid only when actually employed); and 56 tobacco inspectors, who receive fees to be paid by the manufacturers.

SALARIES.

I have the honor to recommend that Congress appropriate, for the fiscal year ending June 30, 1882, the sum of $254,880, as salaries for the following officers, clerks, and employés in this bureau:

One Commissioner, at	$6,000
One deputy commissioner, at	3,500
Seven heads of division, at	2,500
One stenographer, at	1,800
Twenty-three clerks, class four, at	1,800
Twenty-six clerks, class three, at	1,600
Thirty six clerks, class two, at	1,400
Twenty-one clerks, class one, at	1,200
Thirteen clerks, at	1,000
Fifty clerks, at	900
Four assistant messengers, at	720
Ten laborers, at	660

An aggregate of one hundred and ninety-three persons.

An increase in the salary of the deputy commissioner, and of the five heads of division, is recommended for the following reasons:

The law creating the office of deputy commissioner fixed his salary at $3,500. The duties of the office are of great importance, and their faithful performance fully entitles the officer to that pay.

The law, creating the office of head of division states that there shall be seven heads of division, who shall receive each a salary of $2,500. The appropriations for the years ending June 30, 1878, June 30, 1879, June 30, 1880, and June 30, 1881, allowed two heads of division at a salary of $2,500 each, and five heads of division at a salary of $2,250 each. There is no just ground for this discrimination; the officers fully earn $2,500 each, and, in my judgment, should receive that amount.

An increase of $1,550 over the appropriation for the present year will give the above-named officers the salaries to which they are entitled under the law.

MANUFACTURE OF PAPER.

During the fiscal year, all paper for internal-revenue stamps has been made by Messrs. S. D. Warren & Co., of Boston, under the contract entered into with said firm, which was referred to in my last annual report, and a new contract was made with them May 24, 1880. The prices paid under the new contract are for vegetable-sized paper, 11¼ cents per pound, and for animal-sized paper, 12½ cents per pound, as against 9¾ cents and 10¾ cents paid under the previous contract. The paper furnished has been satisfactory as to quality, and all orders have been promptly executed.

PRODUCTION OF STAMPS.

Since the close of the fiscal year, viz, on the 15th October, the work of printing documentary and proprietary stamps, which had been done by the American Bank Note Company of New York City, was transferred to the Bureau of Engraving and Printing. At this time all internal-revenue stamps are produced by said bureau except stamps imprinted upon bank-checks, which are supplied by the Graphic Company of New York City, and stamps upon foil wrappers for tobacco, which are printed by John J. Crooke & Co., of New York, both under the superintendence of this office.

NUMBER AND VALUE OF STAMPS ISSUED.

During the fiscal year stamps were received by the stamp division of this office from the printers named, and issued to collectors, agents, and purchasers, as follows, viz:

Kind.	Number.	Value.
Stamps for distilled spirits	5,105,550	$62,733,675 00
Stamps for tobacco and snuff	210,862,702	26,410,511 52
Stamps for cigars and cigarettes	61,743,548	15,130,076 25
Stamps for fermented liquors and brewers' permits	44,896,240	13,172,935 00
Stamps for special taxes	710,620	9,715,300 00
Stamps for documents and proprietary articles	579,275,864	7,780,369 40
Total	911,002,014	134,942,869 17

The stamps delivered to this office by the Bureau of Engraving and Printing were, on their receipt, counted, and their issue involved the preparation of 18,547 packages, all of which were transmitted to collectors of internal revenue by registered mail. This business was conducted without the loss of a stamp, either while in the hands of the printers, in the custody of this office, or in the course of transmission. Thanks are due to the officers of the Washington City post-office for the promptness and fidelity manifested in the handling of this large amount of registered matter.

ABOLITION OF THE CHARGE OF TEN CENTS EACH FOR "OTHER THAN TAX-PAID SPIRIT-STAMPS."

By act of Congress approved May 28, 1880, the charge of 10 cents each for distillery-warehouse stamps, stamps for rectified spirits, wholesale liquor dealers' stamps, stamps for imported spirits, and warehousing and rewarehousing stamps for grape brandy was abolished. The change in account was made by inventorying the stamps in collectors' hands and giving them credit for the value of the same, and did not necessitate the return of the stamps or any alteration in the form or style of them.

Collectors have been allowed credit for the stamps in their hands when the act took effect, with one exception, and this account will probably be settled at an early date.

REDEMPTION OF STAMPS.

I renew the recommendation made in my last report that that portion of section 17 of the act of March 1, 1879, which prohibits the redemption of stamps unless the same are presented within three years after their purchase from the government or a government agent for the sale of stamps, be repealed.

STAMPS REDEEMED AND EXCHANGED.

Number of claims for redemption of stamps allowed	590
Amount of claims for redemption of stamps allowed	$32,361 67
Number of claims for exchange of stamps allowed	292
Amount of claims for exchange of stamps allowed	$30,988 29

MATCH STAMPS SOLD.

Amount of stamps sold to match manufacturers during the following fiscal years, commissions not deducted.

1876	$2,849,524
1877	2,982,275
1878	3,064,574
1879	3,357,251
1880	3,561,300

A limited number of general proprietary stamps has, no doubt, been purchased by match manufacturers, and are not included in the above statement. Nearly all the stamps sold to match manufacturers are sold on sixty days' credit, under the provisions of section 3425, United States Revised Statutes. There are now pending thirteen suits upon stamp agents' and match manufacturers' bonds for the recovery of $117,413.01 due on the sale of stamps during the past five years.

REVENUE AGENTS.

During the fiscal year ended June 30, 1880, thirty-five revenue agents were employed, and this force has brought to the discharge of its duties a high order of intelligence, experience, and zeal.

Aggregate salary of agents	$82,411 00
Aggregate amount for traveling expenses	46,774 46
Stationery furnished agents	383 54
Total amount of expenses of revenue agents for fiscal year	129,569 00

Revenue agents have been employed as follows:

As chief of division in this office	1
Assigned to divisions	23
Employed in examining collectors' accounts	5
Assistants to agents in charge of divisions	5
Special duty	1

WORK OF REVENUE AGENTS.

Number of persons arrested for violating internal-revenue laws on information of revenue agents	504
Violations of law reported	1,901
Value of property reported for seizure by revenue agents	$194,593 76
Amount of uncollected taxes and penalties reported to collectors by revenue agents	95,109 28

The accounts for expenditures under this appropriation are rendered monthly with an itemized statement, and in all cases supported by subvouchers duly sworn to. These accounts pass through all the accounting offices of the Treasury Department, and are filed in the Register's Office.

TAXES COLLECTED FROM RAILROAD COMPANIES.

The following is a statement of unpaid internal revenue taxes, which accrued under former laws, collected from railroad companies during the last four fiscal years:

Fiscal year ended June 30, 1877	$55,590 30
Fiscal year ended June 30, 1878	218,302 73
Fiscal year ended June 30, 1879	101,340 96
Fiscal year ended June 30, 1880	118,907 12
Total	494,141 11

The amount collected during the past fiscal year was received from twenty different railroad companies.

SUITS AGAINST EX-COLLECTORS.

Subjoined is a list of suits against late collectors of internal revenue in which judgments have been rendered during the fiscal year ended June 30, 1880, furnished by the courtesy of the Solicitor of the Treasury:

United States *vs.* Jarrard O. Rawlins, late collector of internal revenue for the first collection district of California. Judgment for $28,409.53.

United States *vs.* James B. Maupin, late collector of internal revenue for the second collection district of Missouri. Judgment for $2,666.84.

United States *vs.* Frederick A. Sawyer, late collector of internal revenue for the second collection district of South Carolina. Judgment for amount of offer of compromise, $5,219.15.

United States *vs.* Milton Stapp, late collector of internal revenue for the first collection district of Texas. Judgment for $565.52.

COMPROMISES AFTER JUDGMENT.

The records of the Solicitor of the Treasury show that for the fiscal year ending June 30, 1880, thirteen internal-revenue cases were compromised after judgment, the amount accepted being $12,566.01, besides costs. Thirty-one offers of compromise after judgment were rejected, the amount involved being $8,025.83. Twenty offers of compromise were pending July 1, 1880, the amount involved being $6,554.28.

SALE OF REAL ESTATE.

The United States has acquired title to about $500,000 worth of real estate under the internal-revenue laws. Efforts are constantly made, through collectors and revenue agents and by correspondence, to make sale of this property, but with slight progress. Much of this property has been owned by the government for a number of years, and there seems to be no immediate prospect of being able to sell it at a fair valuation, especially in view of the fact that only quit-claim deeds are given upon the sale of said property.

It has occurred to me that it would be wise after the United States had held real estate so acquired for a period of eight or ten years without being able to sell it at a fair cash valuation that it should be put up and sold for whatever it would bring, and as no officer would probably desire to take the responsibility of ordering such a sale it seems to me that provision of law might well be made for the same.

RECEIPTS FOR FIRST FOUR MONTHS OF PRESENT FISCAL YEAR.

The following table shows the receipts from the several sources of revenue for the first four months of the current fiscal year. The receipts for the corresponding period in the last fiscal year and a comparison of the receipts for the two periods are also given:

TOBACCO.

The total amount of collections from tobacco for the fiscal year ended June 30, 1880, was $38,870,140.08. This amount includes the collections of internal revenue taxes imposed upon imported manufactured tobacco, snuff, and cigars, and the special taxes paid by manufacturers of and dealers in leaf and manufactured tobacco, and is less than the receipts from the same source for the fiscal year immediately preceding by $1,264,862.57.

The following exhibit will show the several amounts collected from the different sources of the tobacco tax, and the relative increase or decrease, in each case, as compared with the collections from the same sources for the fiscal year ended June 30, 1879.

TOBACCO AND SNUFF.

Manufactured tobacco at 16 cents per pound	$21,163,166 28
Manufactured tobacco at 20 cents per pound	244 32
Manufactured tobacco at 24 cents per pound	1,743 80
Snuff, taxed at 16 cents per pound	634,609 34
Total for the year ended June 30, 1880	21,804,763 74
Total for the year ended June 30, 1879	25,606,010 25
Decrease of collections on tobacco and snuff	3,801,246 51

Of this decrease $3,533,720.50 was on chewing and smoking tobacco, and $267,526.01 on snuff.

CIGARS AND CIGARETTES.

Cigars, taxed at $6 per thousand	$14,206,819 49

PRODUCTION OF MANUFACTURED TOBACCO, CIGARS, ETC.

Adding to the several quantities of tobacco, snuff, and cigars removed for consumption during the fiscal year ended June 30, 1880, as computed from the amount of revenue derived therefrom, the quantities removed in bond for export, we have the following results, which show the entire production for the last fiscal year:

	Pounds.
Tobacco, taxed at 16 cents per pound	132,301,039
Tobacco, taxed at 20 cents per pound	1,222
Tobacco, taxed at 24 cents per pound	7,266
Total quantity removed for consumption	132,309,527
Snuff, taxed at 16 cents per pound, removed for consumption	3,966,308
Tobacco and snuff removed for exportation	9,807,050
Total product of tobacco and snuff, 1880	146,082,885
Total production for year ended June 30, 1879	131,433,409
Increase of production	14,649,476

PRODUCTION OF CIGARS AND CIGARETTES.

Total product for fiscal year 1879	2,276,534,081
Increase during fiscal year 1880 of	543,625,739

APPARENT EFFECTS OF REDUCTION OF TAX RATE.

From the foregoing statement it will be seen that the entire receipts from manufactured tobacco, including snuff, for the fiscal year ended June 30, 1880, were $21,804,763.74. This is $3,801,246.51 less than the receipts from the same sources during the fiscal year ended June 30, 1879, and $4,579,108.56 less than the receipts from the same sources during the fiscal year ended June 30, 1878, when the taxes on snuff were collected at the rate of 32 cents per pound, and on manufactured tobacco at 24 cents per pound. These collections were made from 3,966,308 pounds of snuff and 132,309,527 pounds of smoking and chewing tobacco.

Had there been no reduction in the rate of tax on snuff and tobacco, the number of pounds which reached taxation during the last fiscal year would have yielded a revenue of $33,023,505.04, or $11,218,741.30 more than was collected.

The total collections from cigars, cheroots, and cigarettes for the fiscal year ended June 30, 1880, were $14,922,088.88. This is $2,389,636.16 more than the receipts from the same sources during the previous fiscal year.

Owing to the large increase in the collections from cigars and cigarettes, the total collections from tobacco, snuff, cigars, and cigarettes amount to $36,726,852.62, which is only $1,411,610.35 less than the collections from the same sources for the previous fiscal year.

To fairly determine the effects of the reduction of the rate of tax on manufactured tobacco, including snuff, made by the act of March 1, 1879, a comparison should be made of the receipts of the two entire fiscal years—1878, when the rate of tax on snuff was 32 cents per pound, and

the rate of tax on chewing and smoking tobacco was 24 cents per pound, and 1880, when the tax was uniformly collected on all classes of manufactured tobacco, including snuff, at 16 cents per pound—leaving out all collections made from cigars and cigarettes, as no change was made in the rate of tax on cigars and cigarettes by the act of March 1, 1879.

This comparison shows a falling off in the receipts from chewing and smoking tobacco and snuff, due to the reduction of rates of $4,579,108.56.

The apparent increase in the consumption of manufactured tobacco, or in the quantity placed on the market tax paid, is not thought to be due to a reduction of the cost of tobacco to consumers as has been claimed, for the reason that there has been no reduction of the price of tobacco paid by consumers, excepting, perhaps, a slight reduction on the very lowest grades of smoking and chewing tobacco.

The true cause of the increase in consumption is to be found in the general revival of business within the last two years, more and better pay to laborers, and increased means to purchase with.

The natural increase in population, and the large influx into the country of foreigners during the last two years, nearly all of whom are consumers of tobacco, have also tended to increase consumption. The presumption is by no means a violent one that the increased consumption would have been about equal if there had been no reduction of rate, and that the collections, instead of being less than $22,000,000 during the last fiscal year, would have been more than $33,000,000 from chewing and smoking tobacco and snuff, and the total collections from all tobacco sources would have reached the round sum of $50,000,000.

IMPORTED CIGARS.

The cigars imported during the fiscal year ended June 30, 1880, as given by the Bureau of Statistics—

	Pounds.
Aggregated in weight	652,402
Of this quantity there were exported	41,329
Leaving to be withdrawn for consumption	611,073
Allowing 13½ pounds to the thousand as the weight of imported cigars, the number of imported cigars included in the above table would be	45,264,667
Number withdrawn in 1879 was	40,666,518
Increase during fiscal year 1880 was	4,598,149

LEAF TOBACCO.

Assuming that for every one hundred pounds of leaf tobacco used in the manufacture of tobacco and snuff eighty-five pounds of manufactured products have resulted, and that for every one thousand cigars manufactured twenty-five pounds of leaf tobacco were used, and that for every thousand cigarettes made five pounds of leaf tobacco were required, the leaf tobacco used during the fiscal year ended June 30, 1880, for manufacturing tobacco, snuff, and cigars aggregated in pounds as follows:

	Pounds.
For manufacturing tobacco and snuff	171,862,218
For manufacturing cigars and cigarettes	60,376,204
Total leaf manufactured	232,238,422
Deduct imported leaf used	8,876,515
Total domestic leaf used	223,361,907
Leaf exported during fiscal year 1880	215,910,187
Total leaf accounted for	439,272,094

SUGGESTED CHANGE IN CIGAR STAMPS.

The attention of the Secretary of the Treasury and of the Commissioner of Internal Revenue, as well as of both Houses of Congress, has been called to suggested changes in the present mode of collecting the tax on cigars by placing the stamp upon the box, and the question arose whether the penal provisions of the law would still apply if for the present mode of affixing the stamp some plan were substituted which contemplated the destruction of portions of the stamp piecemeal as the cigars were sold from the box. The question was submitted to the Attorney-General, who held that the penal provisions of the law would not so apply. As this subject has been considered by appropriate committees of Congress, I respectfully submit whether it would not be proper to have the law so modified as to allow such changes in the form of the stamps as the Secretary of the Treasury and the Commissioner of Internal Revenue might deem would best protect the interests of the government.

DISTILLED SPIRITS.

In my report for the fiscal year ended June 30, 1879, attention was called to the collection of the taxes on the spirits withdrawn from distillery warehouses for exportation and lost in transportation between the distillery and the port of exportation, and to the complaint made by distillers and others engaged in the export trade as to the hardship of such collections. In accordance with my recommendation in the matter, exporters were relieved from this tax by an act of Congress passed December 20, 1879. Pursuant to the provisions of the act allowance was made during the year for loss by leakage in transportation amounting to 8,484 gallons.

EXPORTATION OF ALCOHOL IN METALLIC CANS.

In connection with the subject of deficiency taxes on spirits withdrawn for exportation I had the honor to recommend in my last annual report that provision be made by law for the exportation of alcohol in metallic cans of ten gallons and upward. In accordance with this recommendation certain changes were made in sections 3287 and 3330 Revised Statutes; by sections 6 and 11 of the internal-revenue act of May 28, 1880, providing for the withdrawal of spirits from receiving cisterns into casks or *packages* of not less capacity than ten gallons, wine measure, and providing for the exportation of spirits in original *packages*. No exports of alcohol in tin cans have, however, been made under these privileges, as it appears that there is no foreign demand for packages of alcohol in cans of larger size than five gallons. As it also appears that exporters are willing to encase two five-gallon tin cans in one wooden inclosure, and as I believe such a package may be properly protected by stamps, I would recommend that the law be so amended as to provide for the exportation of alcohol in metallic cans of five gallons and upward, provided the quantity contained in the wooden inclosure is not less than ten gallons.

PRODUCTION OF SPIRITS DURING THE YEAR.

The quantity of spirits (90,355,270 gallons) produced and deposited in distillery warehouses during the fiscal year ended June 30, 1880, ex-

ceeded the production of the previous year by 18,462,649 gallons, the product for 1879, as was shown in my report for that year, having been greater than for any previous year.

The increase in production for the fiscal year 1880 over the production for the fiscal year 1879 is distributed among the different varieties known to the trade, as follows:

Increase in production of—	Gallons.
Bourbon whisky	6,827,067
Rye whisky	2,340,943
Alcohol	2,036,726
Rum	195,846
Gin	21,892
Pure, neutral, or cologne spirits	7,198,489
Miscellaneous	2,664,949
Total	21,285,912
Decrease in production of—	
High wines	2,823,263
Net increase	18,462,649

The causes which, in addition to the improvement of the times, have led to this great increase in the production of distilled spirits, are the amendments of the internal-revenue laws, which have secured—

1. The increase in the bonded period from one year to three years;
2. The allowance for loss by leakage while in warehouse;
3. Relief from the payment of interest on taxes while in bonded warehouse; and
4. The allowance for leakage of spirits while in transportation for export or to manufacturing warehouse.

APPARENT OVER-PRODUCTION OF SPIRITS.

I take the liberty of calling especial attention of distillers and the trade to the fact that on the 1st July, 1879, there were on hand in distillery warehouses 19,212,000 gallons of spirits, which was an increase of about 5,000,000 of gallons over the stock on hand at the same period of the previous year, and that on the 1st day of November, 1880, the amount of spirits on hand was 32,640,000, being an increase of 13,400,000 gallons over the amount on hand on the 1st July, 1879. The steady increase in the number and capacity of distilleries in operation, suggests the probability of the continued enlargement of the stock on hand. It has occurred to me that this business was on the eve of being overdone, and that in the event of a recurrence of the agitation for a reduction of the tax, the holders of these spirits would be in danger of loss.

RECEIPTS FROM DISTILLED SPIRITS.

The following statement shows the receipts from the several articles or occupations relating to distilled spirits subject to tax under internal-revenue laws now in force, for the fiscal years ended June 30, 1879 and

1880, together with the increase or decrease on each article or occupation:

OPERATIONS AT DISTILLERY WAREHOUSES.

The following table shows the quantity of distilled spirits in taxable gallons, at 90 cents per gallon tax, placed in distillery warehouses during the fiscal year ended June 30, 1880, the quantity withdrawn therefrom during the year, and the quantity remaining therein at the beginning and close of the year:

	Taxable gallons.
Quantity of distilled spirits actually remaining in warehouse July 1, 1879	19,212,470
Quantity of distilled spirits not actually in warehouse claimed to have been lost by casualty	166,608
Quantity of distilled spirits withdrawn for exportation, proofs of landing not received	11,009,446
Quantity of distilled spirits withdrawn for transfer to manufacturing warehouse, not yet received at warehouse	13,213
Quantity of distilled spirits produced from July 1, 1879, to June 30, 1880	90,355,270
Total	120,757,007
Distilled spirits withdrawn tax-paid (including deficiencies on export bonds and casualties disallowed)	61,116,523
Distilled spirits exported, proofs of landing received	5,401,303
Distilled spirits allowed for loss by casualty	4,276
Distilled spirits withdrawn for scientific purposes and for the use of the United States	23,048
Distilled spirits allowed for loss by leakage or evaporation in warehouse	75,834
Distilled spirits allowed for loss by leakage in transportation for export	8,464
Distilled spirits withdrawn for transfer to, and received at manufacturing warehouse	190,719
Distilled spirits withdrawn for exportation, proofs of landing not received	22,364,664
Distilled spirits withdrawn for transfer to manufacturing warehouse, not yet received at warehouse	31,724
Distilled spirits not actually in warehouse, claimed to have been lost by casualty	176,563
Distilled spirits actually remaining in warehouse June 30, 1880	31,363,869
Total	120,757,007

The quantity of spirits, 31,363,869 gallons, actually remaining in warehouses June 30, 1880, is the quantity as shown by the original gauge of each package.

The quantity of spirits withdrawn from distillery warehouses for exportation during the year was 16,765,666 gallons.

Of the twenty-one tables immediately following, eight furnish detailed statements of items given in aggregate in the preceding table, three afford information as to production and movements of distilled spirits during the first four months of the year ending June 30, 1880, the others being chiefly comparative statements as to spirits in distillery warehouses, also those held by wholesale liquor dealers, and rectifiers, &c., as follows:

The quantity, by districts, taxable gallons, and months of production of the spirits (19,212,470 gallons) actually in warehouse July 1, 1879, page XLVI.

The same quantity, by districts and by the different kinds, as known to the trade, page LII.

The quantity of the different kinds of spirits as known to the trade (by districts and in aggregate for the fiscal year 1880 and in aggregate only for the fiscal year 1879) produced, page LIV.

The quantity of the different kinds, &c. (as in case of the spirits produced), of spirits withdrawn, upon payment of the tax, for export, for

scientific purposes, for the use of the United States, and for transfer to manufacturing warehouses, and the quantity lost by casualty, page LVI.

The quantity of the different kinds of spirits withdrawn for export from each district and in aggregate, for the years 1879 and 1880, page LIX.

The quantity of spirits withdrawn for export, by the different kinds, by ports from which exported and by ports to which exported, for the fiscal year 1879, page LX.

The quantity of spirits withdrawn for export, by the different kinds, by ports from which exported and by ports to which exported, for the fiscal year 1880, page LXII.

The quantity, by districts, taxable gallons, and months of production of the spirits (31,363,869 gallons), actually in warehouse June 30, 1880, page LXIV.

The same quantity, by districts and by the different kinds known to the trade, page LXXII.

The stock on hand, production, and movement of spirits for the fiscal years 1877, 1878, 1879, and 1880, page LXXIV.

The production and movement of spirits during the first four months of the present fiscal year, page LXXV.

The production and withdrawal of spirits during the first four months of the current fiscal year, page LXXVI.

Spirits withdrawn for export during the first four months of present fiscal year, page LXXIX.

Spirits withdrawn for export during first four months of last four fiscal years, page LXXIX.

SPIRITS AND TOBACCO REMOVED IN BOND FOR EXPORT.

The following statement shows the quantity and percentage of production of distilled spirits and manufactured tobacco (including snuff) removed in bond for export during each fiscal year since the passage of the act of June 6, 1872:

Year.	Distilled spirits.		Year.	Manufactured tobacco.

EXPORTATION OF DISTILLED SPIRITS.

The following figures show the increase or decrease as to the various kinds of spirits exported in the year 1880, as compared with the year 1879:

	Gallons.	Gallons.
Increase in alcohol		1,313,993
Increase in rum		85,861
Increase in pure, neutral, or cologne spirits		548,993
Increase in high wines		3,128
Total increase		1,951,890
Decrease in bourbon whisky	17,563	
Decrease in rye whisky	5,013	
Decrease in miscellaneous	1,229	
Total decrease		23,805
Net increase		1,928,085

As was the case in the fiscal years 1878 and 1879, the bulk of the spirits exported during the fiscal year 1880 was alcohol produced in the northern part of Illinois, shipped on foreign-bound vessels at New York, and consigned to Marseilles, France. During the year 1880 the exportations to Genoa, Gibraltar, and Valencia have in each case exceeded one million gallons, and the quantity exported to each of the ports of Bilboa and Palma, Spain, has nearly reached one million gallons.

The number of ports to which alcohol was exported in 1879 was forty-four, and during 1880, fifty-three. During the fiscal year 1879 the total number of ports to which spirits were exported was sixty-four, and during the fiscal year 1880 was seventy-one.

It will be observed that the foreign demand for American spirits is still increasing, and that the quantity exported during each fiscal year continues to be greater than during the preceding year.

Realizing the importance of placing the legitimate distilling interests of the country on a sound business basis, and thus discouraging the production of illicit spirits, this office has encouraged the exportation of spirits, affording such facilities as was consistent with the due protection of the interests of the government from time to time as occasion required.

Those features of the act passed during last session of Congress, providing for the allowance for actual loss during transportation and for removing the restriction as to size of exported packages and as to the thousand gallons limitation, were passed upon my recommendation.

Railroads and other transportation companies have also been authorized by regulations of the department to become sureties for exporters where it has been shown that such corporations have legal ability to act in that capacity. This measure has been found to operate satisfactorily. Under this system the security of the United States has been of the best character, and the exporters have been enabled to land spirits at foreign ports at quite a saving in brokerage charges incurred in obtaining sureties who were not jointly interested with them in the due delivery of the goods.

SPIRITS WITHDRAWN FROM DISTILLERY WAREHOUSES UPON PAYMENT OF TAX.

	Gallons.
The quantity of spirits withdrawn from distillery warehouses upon payment of tax was in 1880	61,100,362
And was in 1879	51,885,939
Increase	9,214,423

This increase is distributed, except as to the kind known as high wines, as follows:

	Gallons.
Bourbon whisky	1,601,020
Rye whisky	750,208
Alcohol	537,089
Rum	108,792
Gin	36,507
Pure, neutral, or cologne spirits	6,866,998
Miscellaneous	1,829,791
Total increase	11,730,405
Decrease in withdrawals of high wines	2,515,982
Net increase in withdrawals, tax-paid	9,214,423

The amount of interest tax collected during the fiscal year to May 28, 1880, the date of the repealing act, was $158,994.41.

The quantity of each month's product of spirits in warehouse July 1, 1879, which was withdrawn during the year ended June 30, 1880, is shown in the following tabular statement:

TRANSFER OF SPIRITS TO MANUFACTURING WAREHOUSES.

Section 20 of the internal-revenue act of March 1, 1879, providing for transfers of spirits from distillery warehouses to manufacturing warehouses, was amended by section 14 of the act of May 28, 1880, so as to read as follows:

That under such regulations and requirements as to stamps, bonds, and other security as shall be prescribed by the Commissioner of Internal Revenue, any manufacturer of medicines, preparations, compositions, perfumeries, cosmetics, cordials, and other liquors, for export, manufacturing the same in a duly constituted manufacturing warehouse, shall be authorized to withdraw, in original packages, from any distillery warehouse, so much distilled spirits as he may require for the said purpose, without the payment of the internal-revenue tax thereon.

The amendment made by the act of May 28, 1880, enlarged the scope of the act of March 1, 1879, so as to provide for the withdrawal of any kind of distilled spirits from distillery warehouses, the articles to be withdrawn having theretofore been limited to alcohol.

The section as amended also provides for the use of the spirits in manufacturing warehouses in all of the articles authorized by law to be made in such warehouses. The effect of the amendment has been to make a new outlet for the exportation of American spirits.

Section 15 of the act of May 28, 1880, also makes provision, in case of transfers of spirits to manufacturing warehouses, for an allowance for loss by unavoidable accident, without fraud or negligence, as in the case of spirits shipped in bond for exportation.

The transfers during the fiscal year 1879 were 13,213 gallons, and during the fiscal year 1880 were 218,212 gallons. Attention, however, is called to the fact, that inasmuch as the original act was passed March 1, 1879, and the amendatory act May 28, 1880, the transactions of the respective fiscal years are not fair indications of the quantity that will probably be annually withdrawn under said acts.

SPIRITS WITHDRAWN FROM WAREHOUSE FOR SCIENTIFIC PURPOSES, AND FOR USE OF THE UNITED STATES.

The quantity of alcohol withdrawn free of tax from distillery warehouses for the use of colleges and other institutions of learning in the preservation of specimens of natural history in their several museums, or for use in their chemical laboratories, and of spirits of various kinds for use of the United States, amounted during the year to 23,048 gallons, an increase of 5,362 gallons over the quantity withdrawn during the previous year.

SPIRITS LOST BY CASUALTY DURING THE YEAR.

	Gallons.
The quantity of spirits on deposit in distillery warehouses at commencement of fiscal year was	19,212,470
The quantity deposited during the year was	90,355,270
Total	109,567,740

Of this quantity, 14,231 gallons were lost by casualty, being about one-seventy-seventh of one per cent., or one gallon of each 7,696 + gallons was so lost.

It was my pleasure, in my report of last year, during which the loss of spirits was less than one-fiftieth of one per cent. of the quantity stored in warehouses, to call attention to the care exercised by the distillers and storekeepers in the preservation of this inflammable material. As the loss this year is much less than that occurring during the year 1879, it is deemed proper to call renewed attention to the diligence exercised by the distillers and government officers in the preservation of this class of property.

It is quite evident, from the slight loss for the past four years, that the fire insurance on spirits in distillery warehouses might with safety be fixed at the very lowest rate.

The quantity of spirits lost by casualty, on which the tax was abated, during the year, under sections 3221, 3222, and 3223, Revised Statutes, was 4,276 gallons.

DISTILLED SPIRITS ALLOWED FOR LOSS BY LEAKAGE OR EVAPORATION IN WAREHOUSES.

The quantity of distilled spirits allowed under the provisions of section 17 of the act of May 28, 1880, for loss by leakages or evaporation in warehouses during June, 1880 (the only month of the fiscal year in which the act was in force), was 75,834 gallons.

The quantity allowed during the first four months of the current fiscal year was 271,169 gallons.

SPIRITS REMAINING IN WAREHOUSES AT THE CLOSE OF THE YEAR.

In my report for the year ended June 30, 1879, it was shown that the quantity (19,212,470 gallons) in warehouses June 30, 1879, exceeded the quantity in warehouse at the close of any preceding fiscal year. This quantity, however, is greatly exceeded by the quantity (31,363,869 gallons) remaining in warehouses June 30, 1880.

The following table shows the quantity remaining in distillery warehouses at the close of each of the twelve fiscal years during which spirits have been stored in such warehouses:

	Gallons.
Quantity remaining June 30, 1869	16,685,106
Quantity remaining June 30, 1870	11,671,856
Quantity remaining June 30, 1871	6,744,360
Quantity remaining June 30, 1872	10,103,392
Quantity remaining June 30, 1873	14,650,146
Quantity remaining June 30, 1874	15,575,224
Quantity remaining June 30, 1875	13,170,506
Quantity remaining June 30, 1876	12,595,870
Quantity remaining June 30, 1877	13,091,773
Quantity remaining June 30, 1878	14,966,773
Quantity remaining June 30, 1879	19,212,470
Quantity remaining June 30, 1880	31,363,869

It is understood from leading distillers that since the extension of the bonded period the business of selling spirits in bond has largely increased, and that the greater portion of goods now in bond is owned by dealers in various parts of the country who have assumed to the distiller the payment of the taxes as they fall due.

It is evident that the causes adverted to in my last year's report as leading to this great increase in the stock of spirits remaining in distillery warehouses, and as indicating the growing ability on the part of distillers to discharge their obligations to the government, have been in full operation the past fiscal year.

The case of the sixth district of North Carolina was then cited as illustrating the great increase in the number of the legally authorized distilleries in sections of the country recently infested by illicit distillers. The same district can be again used as illustrating this fact, the number of distillery warehouses in that district having increased from 184 July 1, 1879, to 229 June 30, 1880.

In my last year's report reference was made to the building of the largest distillery in the United States at the close of the fiscal year. I have now to report that this distillery has been in successful operation during the year, and that others of its class have been greatly enlarged and fitted up with the latest improvements, thus enabling them to materially reduce the cost of production and to improve the character of their products. By the use of the latest improved purifying, refining, and redistilling apparatus, and the employment of experts, fine grades of alcohol, and pure, neutral, or cologne spirits are produced in distilleries ready for use in the arts and sciences without additional manipulation.

The decrease in the production and withdrawal of high wines, and the increase in the production and withdrawal of all other and finer kinds of spirits, are facts satisfactorily showing the improvement in the methods of producing distilled spirits.

Nearly nine-tenths of the spirits remaining in warehouse June 30, 1880 (27,311,138 gallons out of 31,363,869 gallons), were bourbon and rye whiskies, and the increase in the quantity in warehouse that day over that in warehouse June 30, 1879, was mainly the increase in these two varieties.

There was an increase in all varieties except high wines, as follows:

1871	7,740,260	1880	13,347,110

Prior to September 1, 1866, the tax on fermented liquors was paid in currency and the full amount of tax was returned by collectors. From and after that date the tax was paid by stamps on which a deduction of 7½ per cent. was allowed to brewers using them. Of the 6,207,401 barrels produced during the fiscal year 1866, the tax on 1,033,319 barrels was paid in money, and the tax on 5,174,082 barrels was paid by stamps.

The foreign demand for American malt liquors is still increasing, the applications for drawback during the fiscal year ended June 30, 1880,

upon exports made to foreign ports having more than quadrupled those made for the fiscal year ended June 30, 1879. I take this occasion to renew my recommendation that provision be made in internal revenue laws for the exportation of this article in bond.

EXPORTATION OF MANUFACTURED TOBACCO AND SNUFF IN BOND.

The subjoined table shows, as removed and unaccounted for July 1, 1879, and July 1, 1880, the quantity in pounds of manufactured tobacco and snuff which had been removed for exportation in bond, and concerning which the proofs of landing at a foreign port had not been furnished prior to the dates named.

AMENDATORY ACT REGULATING THE EXPORTATION OF TOBACCO, SNUFF, AND CIGARS IN BOND.

By an act of Congress passed during the latter part of the fiscal year, namely, on the 9th of June, 1880, section 3385 of the Revised Statutes, governing the exportation of manufactured tobacco, snuff, and cigars in bond, was amended so as to provide that export bonds which had been given or which should thereafter be given under the provisions of that section should be canceled upon the presentation to the collector of

internal revenue of the detailed report from the inspector of customs and a certificate of the collector of customs at the port from which the goods are exported, that the goods removed from the manufactory under bond and described in the permit of the collector of internal revenue had been received by the said collector of customs, and that said goods were duly laden on a foreign-bound vessel, naming the vessel, and that the said merchandise was entered on the outward manifest of said vessel, and that said vessel and cargo were duly cleared from said port, and on the payment of the taxes on the deficiency, if any.

The effect of the amendment is to relieve exporters of tobacco, snuff, and cigars, exporting under the provisions of the law as amended, from the production of evidence showing landing of the goods at a foreign port. The law has not yet been sufficiently long in operation to show whether the release from the obligation to produce a landing certificate will be accompanied by a corresponding large increase of exportations. It, however, appears that in striking out a portion of section 3385, Revised Statutes, and substituting for the portion stricken out the amendatory provisions of the new law, the language of that part of section 3385 relied upon as authorizing the exportation of tobacco, snuff, and cigars by railroad cars or other land conveyances was, through inadvertence, not restored. I see no good reasons why the exportation of these articles under section 3385, as amended, should be confined to vessels, and I would therefore recommend that as early as possible in the next session of Congress the law be amended so as to clearly provide for the exportation of tobacco, snuff, and cigars by railroad or other land conveyances.

*Distilled spirits.

In connection with the foregoing statement I have to call attention to the fact that while a drawback of tax on exported stills is authorized by section 3244, Revised Statutes, as amended by section 16 of the act of March 1, 1879, no provision has been made for the allowance of drawback on exported worms belonging to stills, which, like stills, are subject to a tax of $20 each.

I have, therefore, to renew the recommendation made in my last annual report, that section 3244 named be amended so as to include such worms exported subsequent to March 1, 1879, the date above referred to. I have also to call attention to the fact that no appropriation for the payment of drawback authorized by sections 3244 and 3329, Revised Statutes, has been made, and I would therefore further recommend that section 3689, Revised Statutes, making appropriation for the payment of internal-revenue drawback be also amended so as to include all articles exported under the provisions of said sections.

On pages 192 and 193 of the tables accompanying this report will be found a statement of the amount of special taxes paid in each State and Territory during the special-tax year ended April 30, 1880. The following table shows the number of persons who paid those taxes:

ASSESSMENTS.

The following table shows the assessments made by the Commissioner of Internal Revenue during the fiscal years ended June 30, 1879, and

June 30, 1880, respectively, and the increase or decrease on each article or occupation:

Article or occupation.	Amount assessed during fiscal year ended—		Fiscal year ended June 30, 1880.	
	June 30, 1879.	June 30, 1880.	Increase over 1879.	Decrease from 1879.
Tax on deficiencies in production of distilled spirits	$63,574 50	$73,158 63	$9,584 13	
Tax on excess of materials used in the production of distilled spirits	5,050 27	2,829 97		$2,220 30
Tax on deposits and capital of banks and bankers	3,143,302 64	3,247,998 90	104,696 26	
Tax on circulation of banks and others	9,242 62	461,597 82	452,355 20	
Tax on distilled spirits fraudulently removed or seized	126,002 14	53,312 18		72,689 96
Tax on fermented liquors removed from brewery unstamped	6,144 33	877 75		5,266 58
Tax on tobacco, snuff, and cigars removed from factory unstamped	61,917 45	88,584 85	26,667 40	
Tax on proprietary articles removed unstamped	2,014 95	1,529 80		1,065 09
Assessed penalties	102,285 72	93,265 14		9,020 58
Legacies and successions	182,036 71	135,532 80		46,503 91
Unassessed and unassessable penalties, interest, taxes previously abated, conscience money, and deficiencies in bonded accounts which have been collected; interest tax on distilled spirits; also fines, penalties, and forfeitures, and costs paid to collectors by order of court, or by order of Secretary, and unassessable taxes recovered: also amount of penalties and interest received for validating unstamped instruments (Form 58)	401,975 22	553,315 50	151,337 28	
Special taxes (licenses)	97,068 91	69,770 56		27,292 35
Tax on income and dividends	34,330 54	40,914 60	6,575 06	
Total	4,235,753 09	4,814,394 56	578,636 56	

It will be observed that a decrease has occurred in the assessment of the following taxes, viz: On excess of materials used in the production of distilled spirits; on distilled spirits fraudulently removed; on fermented liquors removed from the brewery unstamped; on proprietary articles removed unstamped; on assessed penalties; and on occupations (special taxes).

This indicates a better observance of the laws on the part of taxpayers, and a more prompt payment of their taxes.

The assessment of taxes on legacies and successions is under a law long since repealed, and in the nature of things such assessments must naturally decrease.

There has been an increase in (1) the assessments on deficiencies in the production of distilled spirits; (2) of the tax on tobacco, snuff, and cigars removed from factories unstamped; (3) on the capital and deposits of banks and bankers; (4) on the circulating notes of individuals and corporations; (5) taxes recovered by suit, and (6) on incomes and dividends.

As to the first two classes named the slight increase is not regarded as significant of increased violations of law, as the assessments are below the average.

An increase in the third class is a gratifying evidence of increased prosperity in the business of the banks and bankers of the country.

The increase in the fifth class arises mainly from collections of taxes on net earnings and gross receipts of railroad and other State corporations.

The following statement shows the amount of assessments in each of the several States and Territories of the United States during the fiscal year ended June 30, 1880:

Alabama	$33,402 91	Montana	$4,129 60

D.—*APPENDIX showing the DIFFERENCES between the COLLECTIONS in the DISTRICTS, STATES, TERRITORIES, and YEARS BELOW NAMED, as REPORTED by COLLECTORS and PUBLISHED in the SEVERAL ANNUAL REPORTS OF THE COMMISSIONER, and the TRUE COLLECTIONS.*

[NOTE.—These differences were mostly discovered at the final settlement of the accounts of such collectors as have retired from office after the reports for the years in which they occurred had been printed. Hence their appearance in this form.

To ascertain the exact amount collected in any one of the following-named districts, States, or Territories prior to July 1, 1880, add to or subtract from, as the case may be, the collections for that district, State, or Territory in the "total" column in Table D, the sum or sums entered opposite the same district, State, or Territory in this appendix. The result will be the aggregate amount collected.

On pages 134, 135, 136, and 137 the signs (+) and (—) are used to denote the amounts to be added and subtracted, respectively.]

*A part of the first proviso of section 59, act of July 20, 1868, reads as follows: "A tax of $1 on each barrel, counting 40 gallons of proof spirits to the barrel, shall be assessed and collected from the owner of any distilled spirits which may be in bonded warehouse at the date of the taking effect of this act, to be paid whenever the same shall be withdrawn from such warehouse." This proviso, in effect, makes the tax 60 cents per gallon on 24,383,951 gallons in warehouse at the time of the passage of that act.

†Section 56 of act approved July 20, 1868, provided that all distilled spirits in bonded warehouse at the time of the passage of that act not withdrawn within nine months should be forfeited to the United States. The act of April 10, 1869, extended the time of the withdrawal of such spirits to June 30, 1869, but imposed a tax of 1 cent per gallon for each month after April 20, 1869. The receipts on account of this additional tax were $51,695.27.
